The Office of Historic Preservation provides services to city and county governments throughout California in relation to land use planning issues dealing with historical resources through the Certified Local Government Program (CLG). The CLG Program is a national program designed to encourage the direct participation of local government in the identification, registration, and preservation of historic properties located within the jurisdiction of the local government. The CLG program encourages the preservation of cultural resources by promoting a partnership among local governments, the State of California, and the National Park Service, which is responsible for the National Historic Preservation Program.
